Which VIO Servers Are You Using for vSCSI Storage?

How do you know which VIO servers your AIX LPARs are using for storage? There are different options for presenting storage for your AIX VIO clients (the LPARs). This article focuses on vSCSI storage.

For most environments, the creation of virtual SCSI disks is a set-and-forget kind of activity. This makes it low maintenance, but it does have the drawback of being hard to remember how to do. (That's the "forget" part of set and forget.)
